AMENDMENT # 1

DATE:       November 20, 2008
TO:         All Bidders of Record
FROM:       Greg Van Wart, Buyer
SUBJECT:    Amendment # 1 to T-2742 “CNM Westside Campus Phase II Landscape Project”

This amendment becomes part of the Contract Documents and modifies the original bidding documents
as noted below:

1. Question: I visited the site again today to try to determine the limits of the landscape improvements for this
   project. Clarification to Exhibit D (area sketch) and the Scope of Work narrative on page 7 would be helpful
   since we are unsure of the intent of the direction provided in the contract documents.

   Are we supposed to include all of the areas within the outline shown on Exhibit D from curb to curb or sidewalk
to sidewalk or just the side slopes, headwalls, and bottoms of the arroyos? If the entire areas from curb to curb
or sidewalk to sidewalk are included, are we to remove the existing crusher fines within these areas and replace
with the 2” of ¾” brown rock over a weed barrier so that all of the areas beyond the arroyos within the outline
are treated?

   The narrative seems to provide a lot of detail regarding the arroyo treatment and then the last note gives
direction about the side slopes and “the area not covered by cobbledstone”

   Answer: From curb to side walk and in some Areas side walk to wall including slopes of the arroyo. You only
   need to remove the gravel and mud from the bottom of the arroyo to the old weed barrier. And remove all weeds
   and replace the bottom of the arroyo with ground cover and place 2”coble on the bottom of the arroyo. Cover
   the entire area with a weed barrier, thin place ¾”crush 2” deep over the entire area except Areas that have coble
   as mentioned.

2. Due date and time has been extended to Tuesday November 25, 2008 at 3:00PM

All other specifications, terms and conditions remain unchanged. Bidders are required to acknowledge receipt
of this Amendment in the space provided on page 9, Section E.
