AMENDMENT # 2

DATE: July 28, 2009
TO: All Bidders of Record
FROM: Greg Van Wart, Buyer
SUBJECT: Amendment # 2 to T-2764 “Retaining Wall, Sidewalk and Landscape at CNM’s Westside Campus”

This amendment becomes part of the Contract Documents and modifies the original bidding documents as noted below:

1. **Question:** Are the lava stones to be removed from the sight or replaced after ¾ rock is installed or may they be covered with the dirt.

   **Answer:** As I stated at the site visit I will remove the lava rock, as soon as I know we have someone to do the job. Whatever is left can be covered.

2. **Question:** Can the grade between the retaining wall and the masonry pilaster fence be changed if more dirt is needed to raise the soil level to 33” west of the retaining wall i.e. some dirt brought down from above to achieve the 33” level or must fill dirt be imported to achieve the 33” height and the grade above to the west to remain the same.

   **Answer:** The soil that is removed for the side walk should be placed behind the wall and the soil on the slope be brought down as to complete the grade behind the wall. The wall is only 24” high and it will lose 4 to 5” when starting out on the grade 4” below the surface of the side walk. I don’t see the 33” that is talked about.

3. Due date and time remains Wednesday July 29, 2009 at 3:00PM

All other specifications, terms and conditions remain unchanged. Bidders are required to acknowledge receipt of this Amendment in the space provided on page 9, Section E.
