AMENDMENT # 1

DATE: April 19, 2012

TO: All Bidders of Record

FROM: Greg Van Wart, Buyer

SUBJECT: Amendment # 1 to T-2846 “Milling Machine and Lathes”

This amendment becomes part of the Contract Documents and modifies the original bidding documents as noted below:

1. **Question:** In the instructions to bidders, Item 1 which starts off with All prices shall be …… Installation, on-site training?
   What does the college expect the vendor to do? Do you want the vendor to connect the new machines to the existing electrical service, by employing a certified electrician, and if so, what is the distance to the main electrical source, and what is the voltage and amperage of the electrical source.

   **Answer:** Installation means offloading from truck and placing at designated location in lab. CNM will attend to the electrical connection(s).

2. **Question:** What is your interpretation of On-site training?

   **Answer:** On-site training means a company representative will need to come to CNM to train faculty in the event there are any unique or any non-standard features on the equipment. We don’t anticipate anything as these are manual machines (versus CNC).

3. **Due date and time has been extended to Wednesday April 25, 2012 at 3:00PM**

All other specifications, terms and conditions remain unchanged. Bidders are required to acknowledge receipt of this Amendment in the space provided on page 9, Section E.
