Introduction
Biology involves the study of living matter and the ways in which living matter relate to our environment. Most biological scientists are classified by the organism they study or activity they perform.

What Can I Do With This Degree?
- Biotechnology
- Genetics
- Microbiology
- Botany
- Systematic Biology
- Entomology
- Marine and Aquatic Biology
- Zoology
- Biomedical
- Bioinformatics
- Education
- Healthcare
- Technical and Pharmaceutical Sales
- Legislation/Law
- Biological Photography
- Technical Writing
- Illustration

Potential Occupations
- Air Pollution Analyst
- Agricultural Biologist
- Animal Ecologist
- Biochemist
- Biological Oceanographer
- Coroner
- Drug Inspector
- Ecologist
- Fisheries Scientist
- Forensic Pathologist
- Geneticist
- Immunologist
- Land Use Planning Coordinator
- Medical Illustrator
- Pesticide Specialist
- Pharmaceutical Personnel
- Public Health Environmentalist
- Taxonomist
- Wildlife Biologist or Parks Naturalist
- Zoologist

Employers look for these desirable qualities:
- Patience and persistence
- Ability to apply basic principles to new types of problems
- Ability to think logically
- Creativity and analytical mind
- Knowledge of computer programming
- Good reasoning ability
