

Protection Orders

CNM complies with New Mexico State law in recognizing orders of protection. Any person who obtains an order of protection from New Mexico or any reciprocal state should provide a copy to the Security Department. When someone within the CNM Security department is approached by an individual wishing to file a protective order, the requesting party will receive immediate assistance from security staff, and with a security Supervisor's approval, law enforcement will be contacted. The requesting party will also be offered support resources.

Upon receipt of a Civil/Domestic Order the Security Department will engage a Security Supervisor to manage the situation and ensure an incident report is generated. Assure the safety of compliant/petitioner and contact law enforcement if the situation appears to be escalating into violence. Confirm any and all associations of the parties in the Order to CNM (student, staff or faculty). Verify identity of person presenting the document. The Incident will be forwarded to the Dean of Students office and/or the CNM Human Resources office. The Order will remain in an archive file for a minimum of three years.

A complainant may then meet with Security, Dean of Students office or Human Resources to develop a plan to reduce the risk of harm while on campus or coming and going from campus. This plan may include, but is not limited to: mutual no contact orders, safety escorts, special parking arrangements, changing classroom/work site location, or working with Achievement Coaches on alternative class possibilities, allowing a student to complete assignments from home, or allowing an employee to develop a flexible work schedule, etc.
