includED Digital Textbooks

What is an includED Digital textbook?: includED is a program that electronically delivers the required book automatically to the student on the first day of class. Information should also be included on your course syllabus provided on the first day of class.

- Check your class schedule in your myCNM account for includED bookstore charges.
- Public/Charter high school students: If you have these charges on your account, please disregard the charge. Your high school will be billed once the class starts.

Please review our [fee's page](#) for a list of courses that have an includED option.

Other Important Information:

- Your high school must approve your registration. Your high school will receive information about the course(s) you've registered for. If your school doesn't approve the course(s), they will be dropped from your schedule.
- During the summer term, please double check with your high school counselor to confirm if your high school will cover your textbooks.
- As always, we encourage you as the Dual Credit student to communicate with your high school so that your school is aware of you participating in the Dual Credit program and to ensure support from your high school.
