The Central New Mexico Community College Emergency Medical Services Program reserves the right to make any revisions, deletions or additions to the policy and procedures contained herein. Those changes will be provided to students in updated versions of this Student Handbook and provided to current students through course instructors via syllabi or by email or other written means of communication.

Policies listed here apply to all students in the EMS programs of study. These policies are in addition to or compliment school and college policies.

**CNM Strategic Direction**

In 2012, CNM gathered input from students, faculty and staff to help develop the Strategic Direction that will guide the college for the next five years. The strategic direction encompasses the college's core Mission, Vision and Values as well as three overarching goals: Student Success, Community Success, and Organizational Excellence and Innovation. You can learn more below.

**EMS Program Goal**

“To prepare competent entry level Emergency Medical Technician Paramedics in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains, with or without exit points
at the Emergency Medical Technician Intermediate, and/or Emergency Medical Technician Basic, and/or First Responder levels”

EMS Program Mission

The CNM Emergency Medical Services (EMS) Program prepares students to be the future leaders of a profession built upon changing lives in moments of need and around the well-being of our communities through the highest quality education and student success resources.

Program Officials

Jessica Medrano- Academic Affairs Director of EMS Program
Beth Richardson -Clinical Coordinator EMS Program
Joy Cherry –Internship Coordinator EMS Program
Rebekah Moskowitz- ALS Level Program Coordinator
Sean Haaverson- Community EMS Program Coordinator
Kyle Cole -BLS/ILS Level Program Coordinator

Advisory Board

Membership meets twice a year and includes:
Employers
Medical Director
EMTs
Current Students
Former Students
Public Representatives
Faculty and administration from HWPS
Job Connection Center
Accreditation

The CNM Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).

The CNM EMS Program maintains membership to the Joint Organization on Education as directed through the legislative authority of the State of New Mexico.

Commission on Accreditation of Allied Health Education Programs

Program Tuition, Fees and Additional Costs

CNM tuition is based on residency status as defined by the CNM tax district, the number and type of the credit hours enrolled in. Information on tuition can be found on CNM’s website. Tuition rates and fees (not including text books) at the time of the last revision of this document are found at: https://www.cnm.edu/depts/enrollment/registration/tuition.

NREMT Exam Fees

www.nremt.org

EMR (First Responder) written exam: $75
EMT-Basic Written $75.00
AEMT Written Exam: $85.00 AEMT Practical Exam: $180
Paramedic Written: $100.00 Paramedic Practical Exam: $180 to $220

State of NM EMS Bureau Licensing Fees

www.nmems.org

EMR (First Responder) $25.00
EMT (EMT-B) $65.00
AEMT (EMT-I) $75.00
Paramedic (EMT-P) $85.00

**Code of Ethics for EMS Practitioners**

Professional status as an Emergency Medical Services (EMS) Practitioner is maintained and enriched by the willingness of the individual practitioner to accept and fulfill obligations to society, other medical professionals, and the EMS profession. As an EMS practitioner, I solemnly pledge myself to the following code of professional ethics:

- To conserve life, alleviate suffering, promote health, do no harm, and encourage the quality and equal availability of emergency medical care.

- To provide services based on human need, with compassion and respect for human dignity, unrestricted by consideration of nationality, race, creed, color, or status; to not judge the merits of the patient’s request for service, nor allow the patient’s socioeconomic status to influence our demeanor or the care that we provide.

- To not use professional knowledge and skills in any enterprise detrimental to the public well-being.

- To respect and hold in confidence all information of a confidential nature obtained in the course of professional service unless required by law to divulge such information.

- To use social media in a responsible and professional manner that does not discredit, dishonor, or embarrass an EMS organization, co-workers, other health care practitioners, patients, individuals or the community at large.

- As a citizen, to understand and uphold the law and perform the duties of citizenship; as a professional, to work with concerned citizens and other health care professionals in promoting a high standard of emergency medical care to all people.

- To maintain professional competence, striving always for clinical excellence in the delivery of patient care.

- To assume responsibility in upholding standards of professional practice and education.

- To assume responsibility for individual professional actions and judgment, both in dependent and independent emergency functions, and to know and uphold the laws which affect the practice of EMS.

- To be aware of and participate in matters of legislation and regulation affecting EMS.

- To work cooperatively with EMS associates and other allied healthcare professionals in the best interest of our patients.
EMS Program Student Handbook

- To refuse participation in unethical procedures, and assume the responsibility to expose incompetence or unethical conduct of others to the appropriate authority in a proper and professional manner.

**Professional Behavior Standards**

CNM EMS Program students are taking classes which prepare them to be medical professionals who are placed in a position of great responsibility by the public. As such, they are expected to model the behavior expected of those professionals and the behavior you’d like to see from somebody who is potentially going to be caring for your loved ones. Among the behaviors expected are:

- Punctuality
- Respect for the facilities, faculty, staff and other students
- Patient advocacy
- Accountability
- Responsibility
- Maturity
- Empathy/Sympathy
- Preparedness
- Professional Appearance
- Professional tone when speaking to others
- Professional use of vernacular and body language
- Ability to listen to constructive feedback

These are only some examples of the types of behavior expected from those who would have the public trust them. The responsibility of the CNM EMS program faculty is broader than to prepare students for their licensing exams, we also have a responsibility to the public, to ensure that those who graduate are deserving of the public’s trust. This general philosophy carries over into all of the following guidelines.

The CNM EMS program will not permit a student who demonstrates inappropriate behavior to be placed in a position of trust by the public by obtaining a license and possible employment in public safety, and or a patient care environment. At any point, if a student demonstrates behaviors that are inconsistent with the expected professional standard, they will be counseled, and potentially enter into a disciplinary process. The disciplinary process can range from a verbal warning up to and including suspension and or dismissal from the program. All interactions will be documented and placed in the student’s administrative file.

The CNM EMS Program reserves the right to remove a student for behaviors unbecoming of a professional EMS Healthcare Provider even if the student is in good academic standing. Students who continually violate professional behavior standards will be referred to the academic affairs director, as well as a review committee regarding their standing in the EMS program. The student shall be notified in writing regarding any potential action to be taken by the AAD and the Review Committee. Students who violate the CNM Student Code of Conduct will be referred to the Dean of Students in addition to
the Academic Affairs Director and the Review Committee. Re-entry to the EMS Program will be handled on a case by case basis.

Examples of behavior that may result in disciplinary action, including possible removal from the program, are:

a. treating others in a discourteous manner;
b. accepting gifts from individuals who teach, coach, evaluate, precept, guide or otherwise have influence over the student educational experience;
c. wearing clothing inappropriate for the activities being performed;
d. consistently arriving to clinical, class, or lab assignments unprepared
e. failing to report to clinical, class, or lab assignments punctually at the assigned times, or failing to be at the clinical site, class, or lab assignments as scheduled;
f. consistently arriving late or leaving early from clinical, class, or lab assignments
g. failing to maintain cleanliness and order in clinical, class, or lab assignment areas;
h. fighting with or assaulting others;
i. threatening or intimidating others;
j. falsifying or altering any educational record or report;
k. stealing, destroying, defacing or misusing clinical, classroom, or lab site property or another’s property;
l. engaging in acts of insubordination including, but not limited to, refusing to follow program administration instructions concerning an education-related matter;
m. using profanity or abusive language;
n. sleeping at a clinical site, classroom or lab setting;
o. gambling on clinical, classroom, or lab site property;
p. playing malicious or dangerous pranks or practical jokes, or engaging in horseplay.
q. *Alcohol and substance use and/or abuse in a classroom, lab, clinical or field setting
r. dishonesty;
s. sexual or any other form of illegal harassment;
t. possession of deadly weapons on clinical, classroom, lab site property;
u. Behavior (as demonstrated by tone, body posture, and/or vernacular) that is confrontational, negative, aggressive, intimidating, demeaning, distracting and/or disruptive as judged by the CNM EMS Faculty, clinical instructor, and/or preceptors
v. Any behavior that causes disruption to the classroom, learning environment as deemed by the CNM EMS program.
w. Violation of CNM policies or directives.

*Students will adhere to the HWPS Suspected Impairment Policy regarding suspicion of alcohol or illegal substance abuse. CNM EMS Program has a zero tolerance policy for positive alcohol or illegal substance abuse lab results. Student will be dismissed from the program.
Academic Integrity

Students are expected to conduct themselves at all times with the highest academic standards. Cheating, falsifying work or plagiarism will not be tolerated. Students committing these offenses are subject to penalty ranging from a “0” on the assignment or test, to an “F” for the course. Students who witness academic dishonesty and don’t report it will be considered to be part of the incident and will receive the same disciplinary actions as the initiating party. No electronic device will be allowed in testing areas. Students are not permitted to utilize search engines, such as Google, during in class examinations. Students who are caught using search engines are subject to disciplinary action as outline in the Student Code of Conduct.

Uniform Policy

EMS Program Uniform Policy

This includes black pants (no jeans), black, closed toe shoes (no tennis shoes) and the blue CNM clinical polo shirt. Boots are recommended. The shirt needs to be tucked in. Pants must be at waist level, not below. A plain black belt will be worn (not supplied by uniform fees) with no flashy belt buckle or studding. All clothing needs to be in good repair and laundered. Clothing should reflect the profession and school you are representing. Baseball hats/beanies will not be worn inside during class at any time. If student chooses to wear hat it must be plain and black with the only wording stating EMT or EMS. The hat cannot be worn reversed while in uniform. Piercings should be limited to one stud per ear. No nose or tongue piercings are allowed. All tattoos should be covered at all times. Acceptable long sleeve shirts to cover tattoos are plain solid black or white only. Band-Aids should be used to cover any tattoos visible elsewhere. Hair is to be kept clean and professionally groomed. Extreme hair styles or un-natural hair colors are not allowed. Long hair needs to be held back as directed for various activities. Goatees, mustaches, and sideburns must be clean and neatly trimmed and must be able to fit under a N95 mask. Student should attempt to wear a plain colored jacket during inclement weather. The student is advised to avoid jackets which advertise or show support for various organizations. CNM is not responsible for clothing damaged or contaminated during clinical and internship rotations. The student understands that strong odors including body odor, tobacco smoke, cologne, perfume is not acceptable while in uniform and participating in any EMS program related activity. The student is permitted to wear plain navy blue or plain black jackets for field rotations. Name tag must be visible on jacket. CNM jackets are available to check out for field internship only.

Pre-hospital field and hospital clinical sites aside from CNM campus will likely have more stringent uniform requirements that all CNM EMS Program students MUST adhere to in order to be allowed in the clinical and or pre-hospital field setting.
Uniform Policy Enforcement

Please understand that having you in uniform is in your best interest. It helps you, the student, prepare for what the field and the public eye expect of you as a provider. With that, we hope that you all continually comply with the above stated uniform policy and no further attention is needed. However, if you are not in compliance with uniform policy at ANY time during your theory, lab, clinical or internship experience, the following will occur:

First offense:
Verbal warning that will be documented by instructor and placed in student file. An email will also be sent to other faculty.

Second offense:
Written documentation in student file, and brought to level coordinator’s attention to include a follow up meeting.

Third offense:
You will be sent out of class and asked to correct uniform violation. If you are unable to correct uniform violation on campus (i.e. shoes) you will be sent home to correct issue. You will be docked for attendance, and any in class work, quiz, exam, psychomotor skill, or live skill will appear as a zero for a grade. You will also be sent to our Academic Affairs Director. A third offense is considered a professional behavior violation, and will be documented as such.

O*NET Functional Abilities for Program Students

Summary Report for: 29-2041.00 - Emergency Medical Technicians and Paramedics

Assess injuries, administer emergency medical care, and extricate trapped individuals. Transport injured or sick persons to medical facilities.

Sample of reported job titles: Emergency Medical Technician (EMT); Emergency Medical Technician, Basic (EMT, B); EMT Intermediate (Emergency Medical Technician, Intermediate); EMT, Paramedic (Emergency Medical Technician, Paramedic); EMT/Dispatcher (Emergency Medical Technician/Dispatcher); Emergency Medical Technician/Driver (EMT/DRIVER); First Responder; Flight Paramedic; Multi Care Technician (Multi Care Tech); Paramedic

Tasks
• Administer first aid treatment or life support care to sick or injured persons in prehospital settings.
• Operate equipment, such as electrocardiograms (EKGs), external defibrillators, or bag valve mask resuscitators, in advanced life support environments.
• Perform emergency diagnostic and treatment procedures, such as stomach suction, airway management, or heart monitoring, during ambulance ride.
• Observe, record, and report to physician the patient’s condition or injury, the treatment provided, and reactions to drugs or treatment.
EMS Program Student Handbook

- Assess nature and extent of illness or injury to establish and prioritize medical procedures.
- Drive mobile intensive care unit to specified location, following instructions from emergency medical dispatcher.
- Decontaminate ambulance interior following treatment of patient with infectious disease and report case to proper authorities.
- Administer drugs, orally or by injection, or perform intravenous procedures under a physician's direction.
- Immobilize patient for placement on stretcher and ambulance transport, using backboard or other spinal immobilization device.
- Coordinate work with other emergency medical team members or police or fire department personnel.

Tools & Technology

**Emergency medical services suction units or accessories** — Airway suction units; Battery-powered portable suction units; Fixed-suction equipment

**Emergency response litters or stretchers or accessories** — Multi-level wheeled cots; Stair chairs; Stretchers

**Intravenous infusion pumps for general use** — Intravenous IV pressure infusers; Intravenous IV pumps

**Laryngoscopes or accessories** — Curved adult blades; Laryngoscopes; Straight adult blades; Straight pediatric blades

**Medical gas cylinders or related devices** — Fixed-oxygen equipment; Portable oxygen equipment

**Medical oxygen masks or parts** — Adult non-rebreather oxygen masks; Child oxygen masks; Infant oxygen masks

**Orthopedic splint systems** — Cardboard splints; Rigid splints; Splints

**Spine boards** — Extrication devices; Full-spine immobilization devices; Half-spine immobilization devices; Spinal immobilization equipment

**Technology** used in this occupation:

**Information retrieval or search software** — Epocrates software; HyperTox; Skyscape software; TechOnSoftware HazMatCE Pro

**Medical software** — MedDataSolutions Regist*r

**Knowledge**

**Customer and Personal Service** — Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.
Medicine and Dentistry — Knowledge of the information and techniques needed to diagnose and treat human injuries, diseases, and deformities. This includes symptoms, treatment alternatives, drug properties and interactions, and preventive health-care measures.

English Language — Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.

Public Safety and Security — Knowledge of relevant equipment, policies, procedures, and strategies to promote effective local, state, or national security operations for the protection of people, data, property, and institutions.

Education and Training — Knowledge of principles and methods for curriculum and training design, teaching and instruction for individuals and groups, and the measurement of training effects.

Mathematics — Knowledge of arithmetic, algebra, geometry, calculus, statistics, and their applications.

Psychology — Knowledge of human behavior and performance; individual differences in ability, personality, and interests; learning and motivation; psychological research methods; and the assessment and treatment of behavioral and affective disorders.

Transportation — Knowledge of principles and methods for moving people or goods by air, rail, sea, or road, including the relative costs and benefits.

Biology — Knowledge of plant and animal organisms, their tissues, cells, functions, interdependencies, and interactions with each other and the environment.

Administration and Management — Knowledge of business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership technique, production methods, and coordination of people and resources.

Skills

Critical Thinking — Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.

Active Listening — Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.

Coordination — Adjusting actions in relation to others' actions.

Speaking — Talking to others to convey information effectively.

Service Orientation — Actively looking for ways to help people.

Social Perceptiveness — Being aware of others' reactions and understanding why they react as they do.

Active Learning — Understanding the implications of new information for both current and future problem-solving and decision-making.
Complex Problem Solving — Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.

Reading Comprehension — Understanding written sentences and paragraphs in work related documents.

Learning Strategies — Selecting and using training/instructional methods and procedures appropriate for the situation when learning or teaching new things.

Abilities

Problem Sensitivity — The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.

Deductive Reasoning — The ability to apply general rules to specific problems to produce answers that make sense.

Inductive Reasoning — The ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated events).

Oral Comprehension — The ability to listen to and understand information and ideas presented through spoken words and sentences.

Oral Expression — The ability to communicate information and ideas in speaking so others will understand.

Speech Clarity — The ability to speak clearly so others can understand you.

Speech Recognition — The ability to identify and understand the speech of another person.

Arm-Hand Steadiness — The ability to keep your hand and arm steady while moving your arm or while holding your arm and hand in one position.

Information Ordering — The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).

Multilimb Coordination — The ability to coordinate two or more limbs (for example, two arms, two legs, or one leg and one arm) while sitting, standing, or lying down. It does not involve performing the activities while the whole body is in motion.

Work Activities

Assisting and Caring for Others — Providing personal assistance, medical attention, emotional support, or other personal care to others such as coworkers, customers, or patients.
Documenting/Recording Information — Entering, transcribing, recording, storing, or maintaining information in written or electronic/magnetic form.

Making Decisions and Solving Problems — Analyzing information and evaluating results to choose the best solution and solve problems.

Performing for or Working Directly with the Public — Performing for people or dealing directly with the public. This includes serving customers in restaurants and stores, and receiving clients or guests.

Inspecting Equipment, Structures, or Material — Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.

Operating Vehicles, Mechanized Devices, or Equipment — Running, maneuvering, navigating, or driving vehicles or mechanized equipment, such as forklifts, passenger vehicles, aircraft, or water craft.

Getting Information — Observing, receiving, and otherwise obtaining information from all relevant sources.

Identifying Objects, Actions, and Events — Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.

Updating and Using Relevant Knowledge — Keeping up-to-date technically and applying new knowledge to your job.

Performing General Physical Activities — Performing physical activities that require considerable use of your arms and legs and moving your whole body, such as climbing, lifting, balancing, walking, stooping, and handling of materials.

Work Context
Impact of Decisions on Co-workers or Company Results — How do the decisions an employee makes impact the results of co-workers, clients or the company?

Physical Proximity — To what extent does this job require the worker to perform job tasks in close physical proximity to other people?

Outdoors, Exposed to Weather — How often does this job require working outdoors, exposed to all weather conditions?

Work With Work Group or Team — How important is it to work with others in a group or team in this job?

Deal With External Customers — How important is it to work with external customers or the public in this job?

Face-to-Face Discussions — How often do you have to have face-to-face discussions with individuals or teams in this job?
Responsible for Others' Health and Safety — How much responsibility is there for the health and safety of others in this job?

Wear Common Protective or Safety Equipment such as Safety Shoes, Glasses, Gloves, Hearing Protection, Hard Hats, or Life Jackets — How much does this job require wearing common protective or safety equipment such as safety shoes, glasses, gloves, hard hats or life jackets?

Consequence of Error — How serious would the result usually be if the worker made a mistake that was not readily correctable?

Contact With Others — How much does this job require the worker to be in contact with others (face-to-face, by telephone, or otherwise) in order to perform it?

Job Zone

Interests

Social — Social occupations frequently involve working with, communicating with, and teaching people. These occupations often involve helping or providing service to others.
Investigative — Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve searching for facts and figuring out problems mentally.

Realistic — Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.

Enterprising — Enterprising occupations frequently involve starting up and carrying out projects. These occupations can involve leading people and making many decisions. Sometimes they require risk taking and often deal with business.

Work Styles

Concern for Others — Job requires being sensitive to others' needs and feelings and being understanding and helpful on the job.

Integrity — Job requires being honest and ethical.

Self-Control — Job requires maintaining composure, keeping emotions in check, controlling anger, and avoiding aggressive behavior, even in very difficult situations.

Stress Tolerance — Job requires accepting criticism and dealing calmly and effectively with high stress situations.

Dependability — Job requires being reliable, responsible, and dependable, and fulfilling obligations.

Adaptability/Flexibility — Job requires being open to change (positive or negative) and to considerable variety in the workplace.

Cooperation — Job requires being pleasant with others on the job and displaying a good-natured, cooperative attitude.

Attention to Detail — Job requires being careful about detail and thorough in completing work tasks.

Leadership — Job requires a willingness to lead, take charge, and offer opinions and direction.

Initiative — Job requires a willingness to take on responsibilities and challenges.

Work Values

Relationships — Occupations that satisfy this work value allow employees to provide service to others and work with co-workers in a friendly non-competitive environment. Corresponding needs are Co-workers, Moral Values and Social Service.

Support — Occupations that satisfy this work value offer supportive management that stands behind employees. Corresponding needs are Company Policies, Supervision: Human Relations and Supervision: Technical.
Achievement — Occupations that satisfy this work value are results oriented and allow employees to use their strongest abilities, giving them a feeling of accomplishment. Corresponding needs are Ability Utilization and Achievement.

Attendance

Students are expected to attend all class sessions. Instructors will take attendance.

Absences do not relieve students of the responsibility for missed assignments and exams.

Missed work will be at the discretion of the instructor as outlined in their course syllabus.

A student who misses the first class meeting and has not contacted the instructor, or who misses two consecutive class meetings in the first week may be dropped from the course. If a student is dropped from a course for non-attendance he or she is also dropped from co-requisite courses.

The CNM EMS program has an attendance policy. The student may miss a total of 5% of the total class time for the semester without having a deduction taken from their grade. After this 5% has been missed a 1% deduction will be taken for each missed hour of the course (this includes leaving early or coming late to classes). When students request additional help outside of regular scheduled time, a critical examination of their attendance will ensue.

A student should not assume he/she will be dropped automatically. Students should not expect instructors to drop them if they stop attending classes. The instructor’s decision is final, but if the student disagrees with the action he or she must contact the instructor within two working days of receipt of the notification.

Student attendance outside of these guidelines is at the discretion of the instructor.

Excessive absences

Any student absent for three (3) or more consecutive class sessions during the term without first making prior arrangements with the course instructor will be dropped from the class. Students may also be dropped for non-attendance if they are absent for 15% of the class.

Student Health and Wellbeing

In order to promote health and wellness for students and the populations with which they interact, students will:
1. Get adequate rest, especially before clinical days. Sleep deprivation can have similar physiologic effects to drug and alcohol intoxication and poses a significant threat to patient safety. Students who work nights must absolutely refrain from working immediately before and between clinical shifts.

2. Not attend class, clinical, labs, etc. if they are ill. Upper respiratory and gastrointestinal illnesses can be highly contagious. If students are sick, they should stay at home to recover and not bring the illness to the classroom or to the clinical sites. A student who appears ill for class or clinical may be asked by the instructor to leave and may be advised consult a healthcare provider (HCP).

3. Notify the level and or internship/clinical coordinator if they are taking a medication that may or does impair judgment (see Policy and Procedures for Student Suspected of Impairment). Students are also reminded that prescription, as well as over-the-counter, medications may alter sensorium, gait or coordination which could cause a safety risk to the client or student.

4. Provide a “return to work” note from the HCP to the EMS Program Director if the student:
   a. Has been away from campus for three days or more due to illness
   b. Has undergone any surgical procedure, treatment for injury, childbirth, or other medical procedure – In this case the release note must have specifics about restrictions (e.g.) may only lift 20 pounds) OR that no restrictions are in place.
   c. Is currently under the care of a rehabilitation care team member (respiratory therapist, physical therapist, cardiovascular rehab, etc.). – In this case the release note must have specifics about restrictions (e.g.) may only lift 20 pounds) OR that no restrictions are in place.
   d. A copy of the note will be placed in the student file. Students must update the program director as changes to restrictions occur. HCP clearance is required prior to the student returning to the clinical rotation for changes in health status.

5. Discuss any recommendation pertinent to clinical or classroom requirements made by a HCP with the instructor or Coordinator.

**Tobacco Policy**

The CNM Governing Board has approved a proposal to make all CNM campuses smoke free. The use of tobacco products, including the use of chewing tobacco and e-cigarettes, is now limited to designated smoking areas and banned from all other areas at all CNM campuses and locations.

**Background Check and Drug Screening**

Most health care facilities, as part of their contractual clinical agreements with the School of Health, Wellness, and Public Safety (HWPS), require that students complete a drug screen and a criminal background check prior to beginning their educational experiences in the facility. Students with a positive drug screen will be removed from the course for that term. For specific information please see the HWPS policies.
**Required Immunizations**

- MMR or MMR titer results
- Hepatitis B series (must show that you have at least started it)
- PPD must be good through the term (they are good for 1 year) if positive a chest x-ray result must be provided
- Chicken Pox (varicella) vaccine or titer results
- Tetanus within the last 10 years
- Pertussis either DPT within the last 12 years or TDaP
- Flu Vaccine

**Confidentiality**

**HIPPA**

During the course of your educational experience you will experience interactions with patients and gain intimate knowledge of health and social aspects of their lives. This information is always to be treated with confidentiality.

**Student Records (FERPA)**

CNM faculty and staff treat your educational records with privacy as dictated by federal law. The Family Educational Rights and Privacy Act (FERPA - also known as the Buckley Amendment) is legislation that was originally passed in 1974 and is federal law designed...

- to protect the privacy of student's education records,
- to establish the right of students to inspect and review their education records,
- And to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. (Definition established by the American Association of Collegiate Registrars and Admissions Officers 1980)

Due to FERPA and with respect to your privacy, we cannot share your educational information with parties including your parents, spouse, classmates or legal authorities. For more information on FERPA, please contact Enrollment Services at (505) 224-3224.

**Conflict Resolution and Disciplinary Process**

**Student Complaint Process**

Occasionally a student will encounter a problem on campus that he or she does not know how to resolve. When this happens, students should always try to work out the problem by first discussing it with those most involved with the issue.

Dealing with concerns in the most direct and honest fashion should always be the first step toward resolution. Most issues are settled and problems resolved when a student makes an appointment with a faculty or staff member and calmly and honestly communicates their frustrations or concerns.
If, however, an issue or problem is not resolved, there is a formal complaint process at CNM that students may initiate. All formal complaints must be put in writing using the official CNM Student Complaint Form. These forms are available online and in the Dean of Students Office.

When initiating a formal complaint, the following steps should be followed:

1. Be sure you have first attempted to resolve the issue by speaking directly with the individual(s) or office(s) involved.
2. Complete and submit a CNM Student Complaint Form (these should be submitted online or to the Dean of Students Office).
3. When the complaint is received it will be forwarded to the appropriate individual to review and address the issue.
4. After your concern has been addressed, you will receive a letter documenting the receipt and review of your complaint.

**Student Conduct**

All CNM students are expected to abide by the CNM student code of conduct published as part of the catalog. The EMS program also evaluates students based on professional behavior and has standards in that regard that are consistent with industry.

**Email communication and Professionalism**

CNM email and blackboard are the mechanisms by which the students and faculty in the EMS program communicate outside of class. Faculty and staff will respond to email in 48 to 72 hours after receiving it. Faculty are not expected to respond on the weekends, unless the said faculty member has requested communication from the cohort at that specific time. Email communication will be professional in tone and language, will be non-threatening, non-inflammatory and free of vulgar language between faculty and students. Should a student send an inappropriate or threatening email, it will be forwarded to the program director and student will fall under the student code of conduct procedures.

**Internet Access**

In order to be successful in the EMS programs students must have reliable access to the internet outside of class. CNM has open computer labs available for student use on all CNM campuses.

**Cell Phone Use**

Students have the right to uninterrupted classroom and clinical experiences. Phone calls and text messages can disrupt the learning environment for the person sending/receiving the messages and the student peers in proximity.

Classroom and On Campus Labs: When making or receiving personal calls, students should step out of the classroom/lab. Cellphones or other electronic devices can be on the student’s person, but must be in “silent” or “off” mode. Any disturbance, including the sound of a vibrating alert, by a student’s cellular
phone/electronic device is considered rude and disrespectful. The person with the obtrusive cellular phone/electronic device will be asked to leave the classroom.

- Students will not have cellphones/electronic devices on their person at all during exams or exam reviews. They must be stowed in a purse or backpack (or left with the proctor until the activity is completed).

- Clinical Areas: Cell phone and electrical device use will be at the discretion of the clinical instructor and in compliance with the facility’s policy. Clinical and field sites may prohibit any cell phone usage. Cell phone usage in the clinical area can be perceived as unprofessional and is highly discouraged."

- Family emergencies: Students may use the EMS Program office number as an emergency contact number (224-4000). Students will not be called out of class or clinical experiences unless the nature of the emergency is explained by the calling person. If a student feels that the family situation warrants greater availability than a message relay, the student should consider attending to those issues instead of attending class or clinical (see Classroom Attendance and Clinical Attendance). Divergence from these policies may lead to initiation of a success plan.

Social Media

Social media in all forms presents ethical and legal vulnerabilities to students and professionals in medicine. Under no circumstances shall students share any Protected Health Information (PHI) in accordance with HIPPA regulations. Although the social media account may be owned by the student individually, PHI, HIPPA and FERPA violations places the student at liability of academic action and civil action (see your compliance guidelines for details on HIPPA and PHI). In addition, while enrolled in any CNM EMS Program course, the following activities are specifically prohibited:

- Posting photos, videos, or images of any kind which could potentially identify patients, addresses, vehicle license plate numbers, or any other PHI
- Sharing confidential or proprietary information about CNM confidential information, including course materials and exams not approved by the lead instructor
- Posting or other online activities which are inconsistent with or would negatively impact the CNM EMS Program reputation, its clinical and community partners, or organizational staff
- Engaging in vulgar or abusive language, personal attacks of any kind, or offensive terms targeting individuals or groups
- Posting statements which may be perceived as derogatory, inflammatory, or disrespectful toward or regarding the CNM EMS Program, its reputation, its clinical and community partners, and or organizational staff

“Social media” is a term that includes a wide variety of applications, software, and internet based coded formats using technology for social interaction and content creation. Social media use many technologies and forms, such as blogs, wikis, photo and videosharing, podcasts, social networking, mashups, and virtual worlds. This includes current and future technological interfaces.
Students engaging in prohibited activities while participating in the CMS EMS Program and its courses, including breaks between cohorted classes, will be referred to the EMS Program Director for disciplinary action. The use of personal disclaimers outlining that the social media expresses views of the students alone do not protect the student from violation of the policy or laws overseeing the use of PHI. By attending the program you agree that you will not engage in prohibited use as outlined above.

**Disciplinary Process**

At CNM there is a clearly defined process that is in place regarding how student disciplinary issues are addressed. The document that captures this process in writing is called the Student Code of Conduct. This Code of Conduct discusses the behavioral expectations for students, the behaviors that would be considered to be outside of what is acceptable, and how breaches of behavior that may constitute a violation of the Code of Conduct are dealt with.

For the CNM EMS Program there is a defined process that is in place regarding EMS professional standards violations. The document that captures this process in writing is the CNM EMS Program Student Handbook. The handbook discusses the professional standards and behavioral expectations for EMS students. Behaviors that would be considered to be outside of what is acceptable, and how breaches of behavior that may constitute a violation of the EMS professional standards can be found in the CNM EMS Program Student handbook.

As a CNM student, you are accountable for your behavior. If there is a question about whether your behavior is acceptable, it will be addressed by the Dean of Students or by the Director of Student Life and Discipline for student code of conduct violations or by the CNM EMS Program for professional standards violations.

If you are summoned by the Dean of Students or Director of Student Discipline in regard to a discipline-related matter, you are expected to respond appropriately to that summons. Failure to do so will result in a Code of Conduct violation charge. Respectively, if you are summoned by the CNM EMS Program director in regards to a discipline related matter for either the student code of conduct or the EMS professional standards, you are expected to respond appropriately to that summons. Failure to do so will result in violation of the EMS Professional Standards.

The disciplinary process exists to both protect your rights and to address your behavior if you are violating the rights of others. Should you find yourself in a situation where you believe a fellow student has acted toward you in a manner that you believe may constitute a Code of Conduct violation, you should report this behavior to the Office of the Dean of Students. Respectively, this also applies to the EMS professional standards which you should report to the CNM EMS Program Director.

When charged with a violation, a student has the right to notice of the violation and an opportunity to be heard. For infractions where suspension, dismissal or expulsion may be imposed, a student will have
additional rights as set forth in § IV.C.W, below (in the published CNM student code of conduct) and/or the CNM EMS Program Handbook.

Charged students may decide what and how much information they will provide during a disciplinary conference or hearing.

**Offsite Code of Conduct and Behavior Policy**

Students will be exposed to clinical and internship rotations during the course of their EMS studies. Students are bound by the School of Health, Wellness and Public Safety Offsite Code of Conduct and Behavior Policy approved April 7th, 2015.

**Definitions**

**Offsite:** clinical, preceptorship, externship, internship, cooperative, or other scheduled educational activity that occurs outside of CNM property.

**Policy**

A. Students enrolled in HWPS programs shall maintain the highest standards of professional ethics as they attend offsite experiences on behalf of the School of Health, Wellness, and Public Safety (HWPS).

B. Students enrolled in HWPS programs shall perform their duties in a manner that would not give rise to the appearance of conflict of interest.

C. Students enrolled in HWPS programs shall not engage in any dating, romantic or sexual relationships with individuals who teach, coach, evaluate, precept, guide or otherwise have influence over the student educational experience at an offsite location;

D. Students enrolled in HWPS programs shall not fraternize with any person who has an ability to evaluate or influence the students’ educational progress outside of regularly scheduled offsite hours.

E. It is the policy of HWPS that certain rules and regulations regarding student behavior are necessary for efficient offsite operations and for the benefit and safety of all students. Conduct that interferes with clinical operations, discredits the College, is in violation of College policy, is unsatisfactory or is offensive will not be tolerated. Students are expected at all times to conduct themselves in a positive manner to promote the best interests of the College. Examples of behavior that may result in disciplinary action, including possible removal from the program, are:

1. treating others in a discourteous manner;
2. accepting gifts from individuals who teach, coach, evaluate, precept, guide or otherwise have influence over the student educational experience;
3. wearing clothing inappropriate for the activities being performed;
4. failing to report to clinical assignments punctually at the assigned times, or failing to be at the clinical site as scheduled;
5. failing to maintain cleanliness and order in clinical assignment areas;
6. fighting with or assaulting others;
7. threatening or intimidating others;
8. falsifying or altering any educational record or report, such as a clinical document, a statement to the Security department, a statement regarding academic progress or removal from a clinical site;
9. stealing, destroying, defacing or misusing clinical site property or another’s property;
10. engaging in acts of insubordination including, but not limited to, refusing to follow program administration instructions concerning an education-related matter;
11. using profanity or abusive language;
12. sleeping at a clinical site;
13. gambling on clinical site property; and
14. playing malicious or dangerous pranks or practical jokes, or engaging in horseplay.
15. alcohol and substance abuse;
16. dishonesty;
17. sexual or any other form of illegal harassment;
18. possession of deadly weapons on clinical site property;
19. poor clinical site performance;
20. violation of CNM policies or directives.

This list is not intended to be and should not be considered an exclusive listing of inappropriate behavior. Indeed, it would be impossible to list all the circumstances under which discipline may be imposed. CNM retains complete discretion to administer discipline for behavior it deems inappropriate, whether listed above or not.

F. Any student who knows of any act prohibited by law or by College policy or the code of conduct shall report it promptly to the Program Director.
G. No student shall threaten, coerce, manipulate, or mislead faculty, administrators or clinical site representatives engaged in an investigation of a concern regarding the Offsite Code of Conduct and Behavior.

**Reporting Observed, Suspected, or Apparent Misconduct**

**Effective Date:** 03/23/2015 Need to update

**General**

School of Health, Wellness, and Public Safety (HWPS) students, and other individuals associated with CNM, acting in good faith, should report any observed misconduct, whether suspected or apparent. Misconduct is any activity performed by a CNM student or other individuals associated with CNM (i.e. clinical preceptor) that violates state and/or federal laws or regulations, local ordinances, or CNM policies. HWPS students are to maintain the highest standards of personal and professional ethics as they participate in clinical education programs on behalf of the College.

CNM is committed to conducting an initial review and continuing with a thorough investigation into allegations of misconduct where warranted, while protecting the rights of all involved. Misconduct
should be reported as soon as reasonably possible, preferably within one (1) week from the time the person becomes aware of the observed, suspected, or apparent misconduct.

Retaliation is not tolerated by CNM and will be promptly investigated. Retaliation is any adverse action taken against a student because that student reported suspected misconduct. Any student who interferes with, tries to interfere with, or retaliates against the rights of another student for reporting suspected misconduct or cooperating in an investigation is subject to disciplinary action, including possible removal from the program. CNM is committed to protecting students who report suspected misconduct in accordance with the Whistleblower Protection Act (Whistleblower Protection Act - § 10-16C-1. - N.M. Stat. Ann. § 10-16C-1 et seq (2012)). Where possible, confidentiality will be maintained, however, identity may have to be disclosed to conduct a thorough investigation, to comply with the law, and to provide accused individuals their legal rights of defense.

**False or Inaccurate Accusations**

It is important to protect individuals from false, unsubstantiated, or inaccurate accusations. A student who knowingly provides false information or knowingly makes a false report of suspected misconduct or a subsequent false report of retaliation, or who knowingly provides false answers or information in response to an ongoing investigation will be subject to disciplinary action, including possible removal from the program.

**Safe and Professional Environment**

In addition to the College and School student conduct policies and procedures, if a student makes another student, student employee, staff member or any faculty member fear for their own safety by virtue of their actions while in the CNM EMS Program, they will be referred to the Dean of Students and will not be permitted to re-enter the program until all expectations from the Dean of Students office have been met. Upon return, if the student cannot maintain academic success in the program coursework, the student will meet with the instructor and or program director to determine if they should continue in the current course, or withdraw and begin coursework in the following term.

**Student Removal from an Off-Campus Instructional Site, or On-Campus Laboratory, Serving Clients/Patients**

I. **Purpose and Rationale.**

HWPS students often are engaged in experiential learning, both in the community and in off-campus sites. These sites serve clients, patients, employees and students whose safety and well-being must be protected. Additionally, CNM, HWPS and the site’s policies and procedures must be strictly upheld to maintain the integrity of the site’s services.

HWPS enters into a contractual agreement with each off-campus site that authorizes the off-campus Site to “dismiss any student from the Training Site premises when it is deemed in the Training Site’s sole discretion that the student’s health or performance is a detriment to the well-being of any Training Site patient or employee.” The term “patient” is replaced with “client” or “Site student” when the Site does not serve “patients.”
HWPS programs have measurable learning objectives associated with each practical, clinical, internship, externship and cooperative education course conducted at the Sites. These objectives drive HWPS decisions related to this policy.

Course syllabi include:

the measurable learning objectives for the course;

a notice to students that a violation of CNM, HWPS, or Site policy or failure to attain and demonstrate essential skills appropriate to the Site, may result in their removal from the Site and, possibly, the course; and

A notice that removal for the duration of the course may result in a failing grade.

All HWPS students will be given an orientation to CNM, HWPS and Site policies.

II. Definitions.

A. **Instructional Sites** (hereinafter referred to as “Site” or “Sites”).

B. **Off-Campus Sites**: HWPS conducts practical, clinical, internship, externship and cooperative education at off-campus community-based Sites. The Site may be a hospital, clinic, doctor’s office, diagnostic or research laboratory, long-term care facility, government agency, public or private school, or another appropriate site. These Sites are also businesses that have standards and policies to ensure the safety and well-being of their clients, students and/or employees. HWPS students are expected to comply with the same standards and policies as the employees of the Site.

C. **On-Campus Sites**: Practical, clinical, internship, externship and/or cooperative education may also occur in On-Campus locations such as the Health Center, Fitness or Cosmetology Laboratory. The instruction in these on-campus sites is distinguished from a standard classroom or laboratory in that students work directly with clients or patients. These sites are also work sites that have standards and policies to ensure the safety and well-being of their clients, students and employees.

D. **Serious Incident**: An incident which compromises patient, employee, other student(s) safety or the integrity of the Site; or which violates a CNM or Site policy; or which violates a local, state or federal law; or which constitutes a breach of an established professional code of ethics applicable to the field of study.

E. **Session**: The period of time for which a student is given an assignment to a Site that occurs within a continuous 24-hour period of time that begins at 12:00 midnight and ends at 11:59 p.m.

F. **Essential Skills**: Skills necessary to comply with standards and policies that ensure the safety, confidentiality and well-being of clients, students and/or employees or the integrity of the Site services.

G. **Success Plan**: A plan that outlines individualized objectives and plans for improvement as a condition for a student reentering a clinical course or continuing their educational experience at a Site.
III. Failure to Attain and Demonstrate Essential Skills Appropriate to the Site
   A. When a student fails to attain and/or demonstrate Essential Skills appropriate to the Site, a progressive and timely Communication System will be used to notify the student. The Communication System will include:
      1. a verbal notice to the student.
      2. a written notice to the student along with the development and implementation of a Success Plan. See Section VII of this document for information about the Success Plan.
      3. The student meeting regularly with the program director/designee to discuss his/her progress in relation to individualized objectives and plans for improvement included in the Success Plan.
      4. If the student fails to meet the conditions of the Success Plan, the Program Director or designee will meet with the student to provide notice to the student that the conditions of the Success Plan are not being met. The student will be given an opportunity to respond. Failure to meet the conditions of the Success Plan may result in a failing grade or removal from the Site for the duration of the course.

   B. When a student fails to meet the conditions of the Success Plan and his/her continued attendance at the Site is reasonably likely to present a risk to patient, employee, other student’s safety or welfare, or to the integrity of the Site’s services, the student may be temporarily removed from the Site by the Program Director.

   C. An investigation will be conducted and a determination will be made pursuant to Section V of this Policy.

IV. Temporary Removal for a Serious Incident
   A. As soon as possible after the incident, the instructor will meet privately with the student to explain why he/she may be temporarily removed from the Site.
   B. The student will be given an opportunity to respond.
   C. After the meeting with the student and consideration of the student’s response, the instructor may decide to immediately and temporarily remove the student from a Site.
   D. If the decision of the instructor is to temporarily remove the student from the Site, the student shall be informed verbally that they must leave the Site for the remainder of the session and that they will receive further instructions from the Program Director/designee. The instructor shall obtain current contact information from the student and shall provide that information to the Program Director/designee.
   E. The instructor will notify the Program Director/designee as soon as possible after the incident.
   F. The instructor will document the incident and the student response and provide the documentation and any related evidence to the Program Director/designee within 24 hours of the incident. The documentation shall be signed and dated.
V. Investigation, Evaluation and Determination.

A. After a student has been temporarily removed from the Site or a recommendation for temporary removal has been made, the Program Director will conduct an investigation which may include, but shall not be limited to, discussions with instructors or supervisors directly involved with the student, preceptors or other Site employees, and other students having knowledge of the student. If the student has already been removed from the Site, the student should be told that during the investigation and determination process, he/she should not attend scheduled sessions at the Site unless otherwise directed by the Dean, Associate Dean or Program Director.

B. The Program Director shall meet with the student to discuss the events that led to the temporary removal. The student will be given an opportunity to respond.

C. After conducting an investigation and meeting with the student, the Program Director will present the evidence to the HWPS Dean or Associate Dean.

D. The HWPS Dean or Associate Dean shall review the evidence and meet with the student to present the results of the investigation. The student will be given an opportunity to respond to the evidence relating to the removal.

E. The HWPS Dean or Associate Dean shall determine whether to return the student to the Site, whether to transfer the student to another appropriate and available Site, or whether to remove the student from the Site for the duration of the course.

F. The determination of whether and when the student may return to the Site or an alternative Site shall be made within 10 business days, and, if possible, prior to the next Site session for which the student is scheduled.

VI. Removal for the Duration of the Course

A. If, after investigation and consultation with the program director, the student and other relevant personnel, the HWPS Dean or Associate Dean determines that the student is reasonably likely to present an ongoing risk to patient, employee, other student’s safety or welfare, or to the integrity of the Site’s services, the student may be removed from the Site for the duration of the course. This may result in failure of the course.

B. The HWPS Dean or Associate Dean shall inform the student verbally and in writing of the determination. The student shall have the right to appeal the decision to remove him/her for the duration of the course and shall be so informed in writing. All such appeals are processed through the HWPS Division pursuant to the Appeal Policy found in HWPS Division Office and Support Center, CNM Main Campus, Jeannette Stromberg Hall, Room 310. A copy of the Appeal Policy shall be provided with the determination memo.

C. Students may be required to withdraw from co-requisite program courses. Students removed from a course pursuant to this policy may re-enroll in the course at the next enrollment opportunity, subject to space availability and subject to any HWPS limitations on the number of times a student may repeat courses. (See the program handbook for program-specific information regarding course repetition.) Students re-enrolling in a clinical, internship or cooperative education course at a Site after prior removal pursuant to this Policy must develop a Success Plan prior to re-commencing the course.
VII. Success Plan.
Students who fail to attain and demonstrate Essential Skills appropriate to the Site, who are allowed to return to the Site or who are transferred to another Site pursuant to this Policy, may be required to develop a Success Plan which outlines individualized objectives and plans for improvement as a condition of continuing their educational experience at the Site. Students planning to re-enroll in a course after removal pursuant to this Policy are required to develop a Success Plan prior to re-enrolling. The Success Plan will be developed in collaboration with the Program Director/designee, the student and the HWPS Achievement Coach. The Program Director/designee must approve, sign and date the Success Plan. The student will sign and date the Success Plan and will be given a copy of the signed documents. Students who are subject to a Success Plan shall meet at least once per week with the program director/designee to review the student’s status and progress.

VIII. Confidentiality.
The details and all communication related to any removal pursuant to this policy shall be kept confidential, subject to the contractual requirements of individual Sites. If an incident involves more than one student, each student’s case shall be investigated, evaluated and decided individually.

VII. Other Policies.
A. CNM Policies: Incidents that occur in a standard CNM Campus classroom or laboratory shall be considered under appropriate CNM policies which include but are not limited to the Student Code of Conduct, Academic Dishonesty, Information Technology Use, Substance Abuse, and Sexual Harassment policies. The administrative official for the respective policy will be notified if an alleged violation occurs.

B. Suspected Impairment: Students suspected of impairment shall be subject to the HWPS Suspected Impairment Policy.

Attendance in courses conducted at an off-campus Site or at an on-campus laboratory serving clients/patients. Attendance requirements and consequences for not meeting them for shall be clearly stated in the course syllabi and/or program handbooks. Students may be removed from the Site or withdrawn from the course by the Program Director/designee for not complying with stated program attendance requirements. A progressive and timely System of Communication, to include a verbal and written notice to the student, will be used to notify students of attendance issues that could compromise their enrollment status in the course. Students who have received an attendance notice are strongly encouraged to develop a Success Plan with the HWPS Achievement Coach, Instructor and/or Program Director. Students removed from the Site for attendance reasons may submit an appeal to the program. See the Program Director for more information.
Consensual Off-Site Relationships

Effective Date: 04/07/2015

- The provisions of this policy do not supersede Offsite Code of Conduct and Behavior policy.
- A pre-existing (prior to offsite assignment) consensual sexual or romantic relationship between a student and those who teach, coach, evaluate, precept or guide their educational experience at an offsite location can sometimes lead to an actual or perceived conflict of interest, charges of sexual harassment, and retaliation. These situations directly affect CNM’s institutional values and potentially expose CNM to liability. For these reasons, students must disclose any pre-existing consensual romantic or sexual relationships that may be a conflict of interest to the Associate Dean or Academic Affairs Director (EMS and Nursing). Disclosure under this policy for retaliatory or coercive purposes is strictly prohibited. Failure to comply with the disclosure requirement of this policy may result in disciplinary action, including possible removal from the program.
- Administrators must document all steps taken in response to a disclosure under this policy. Administrators should seek guidance from the Dean of Students regarding other individuals associated with CNM (i.e. clinical preceptor, offsite educator, etc.), but who are not CNM employees or vendors.

Cohort Program Progression/Re-entry to include all levels of EMS Instruction

Definitions

Cohort: a group of students taking the same set of courses at the same time and progressing through more than one semester of coursework together

Course withdrawal: the student chooses to drop enrollment in a required program course.

Course failure: the student achieves a grade of less passing as defined by the course syllabus.

Program failure: the student fails and/or withdraws from one or more required program courses during a single semester. This would not include any supplemental lab courses or other coursework not required for degree or certificate completion.

Program re-entry: the student is allowed to re-enter to continue program progression in the semester following the last set of semester courses successfully completed.

- Example: the student last successfully completed all term 2 courses, then had a program failure during term 3. The student would be allowed program re-entry for term 3.

Cohort program progression requirements

Students are expected to complete all courses within a given term successfully. This satisfies the prerequisites of the subsequent term and allows students to progress within a cohort towards the goals of
graduating, taking registry boards, and entering the workforce. Students who fail and/or withdraw from one or more courses during a single semester do not demonstrate program progression and thus constitute a program failure.

Cohort program reentry

Students who experience a program failure may re-enter a program provided they satisfy one of the following conditions:

- **Reregister for courses (first term failure of a cohort program):** students who experience a program failure during the first term of a cohort program must reregister for courses. This involves following the current processes in place for CPE programs, if applicable.

- **Request for Re-entry (first program failure after the first term):** students who experience a program failure after the first term may complete the Request for Re-entry Form. Request for re-entry forms must be submitted to the Program Director and will only be considered if the student submits it prior to the end of the term in which the program failure occurred. Re-entry to the program is on a space available basis. Request for Re-entry students have priority over Re-entry Appeals (see below). Request for Re-entry students are ranked by:
  a) The number of courses successfully completed during the term that the program failure occurred.
  b) Behavioral Rubric scores while in the program
  c) Tiebreaker 1: Calculated GPA of courses successfully completed during the term of the program failure.
  d) Tiebreaker 2: Cumulative CNM GPA

- **Re-entry Appeal (second program failure):** appeal to re-enter a program after a second program failure requires the following procedures:
  1. Students are encouraged to request the assistance of an Achievement Coach for guidance in drafting the letter of appeal. Students are also encouraged to meet with a School Advisor to explore other careers that may be a good fit for their perceived strengths.
  2. The letter of appeal must include:
     a) Student’s full name, mailing address, email address and telephone number.
     b) Description of student strengths they will leverage to be successful in the program
     c) Description of the challenges and/or circumstances that contributed to a second program failure
     d) A plan for success which should include:
        - Positive changes that occurred since the most recent program failure that the student now believes will allow them to be successful going forward.
        - Strategies they will use to overcome the barriers to success they have experienced in the program.
        - A list of outcomes/Measures that would demonstrate future success
3. Students may request Re-entry Appeal before an Administrative Review Committee (ARC). The ARC for a Re-entry Appeal is composed of:
   a) one (1) program director from a different cohort discipline than the student requesting the appeal, and
   b) the program director and/or their designees within the discipline.
   c) the Dean or Associate Dean

4. The written request for Re-entry Appeal must be made to the Program Director within 90 days of the second program failure. A program failure is officially recorded at the time of course withdrawal or entry of a failing grade, whichever occurs first.

5. The ARC will meet and render a decision within ten (10) working days of receipt of the request for appeal. The ARC meeting may be delayed if the CNM campus is closed (snow days, etc.) or during the semester break.

6. The ARC reviews all written requests for Re-entry Appeal and either grants or denies the request for re-entry. The decision of the ARC is final.

7. A written decision will be given to the student and Program Director via e-mail.

8. Successful appeals will granted re-entry on a first come, first serve basis and placement is based on space available. Request for Re-entry students have priority over Re-entry Appeals. Students must accept the seat when it comes available or the appeal will be null and void. If there has been a break in enrollment within the cohort, students requesting a re-entry appeal will be drug tested. Also, if there has been a break in enrollment at CNM, the student will also have to pay for fingerprinting and an additional background check.

9. Students who have their appeal denied are restricted from re-enrolling in the program for a period of up to three (3) years from the date of the appeal decision. Should the student chose to continue this program after the waiting period, the student must restart the program following the current entry process in place at that time. The faculty will convene with the program director and make decisions that reflect the above policy.

**Student Employment**

CNM and the EMS Program understand that students enrolling in the Paramedic Program may be non-traditional students with obligations outside of the classroom. While enrolled in the Paramedic Program the following should be acknowledged:

1. While in the classroom the student is obligated to the materials presented and should NOT be scheduled for a shift, paid, volunteer or otherwise while they are scheduled for class time, clinical rotation or internship shift. Leaving class for work obligations will not absolve the student of any material presented or the guidelines in the attendance policy. Leaving class to respond to a call is unacceptable.
2. Students will be afforded as much flexibility as possible in scheduling clinical and internship experiences but will ultimately fall within the availability as deemed appropriate by the Clinical and Internship Coordinator.

3. Students are strictly forbidden to perform clinical tasks during regularly schedule work. Failure to abide with this policy will result in the immediate termination of the student’s clinical or internship experience.

4. Although CNM cannot dictate your work schedule, it is strongly discouraged that a student works a shift directly prior to their clinical or internship experience. This includes night shifts immediately before class, night shifts immediately before a clinical/internship experience and a day shift immediately before a night time clinical/internship experience.

5. Employment cannot be substituted for clinical/internship requirements.

Inclement Weather Policy for Off-site HWPS Courses

Effective Date: 4/07/2015

Students and faculty should adhere to policies and procedures for college-wide closure or delay due to weather: https://www.cnm.edu/depts/marketing/weather. This HWPS policy is intended to supplement the college-wide policy.

Offsite Courses (CNM faculty on-site / Direct Clinical)

- In the case of a closure, students may be assigned an out-of-class assignment or a make-up day at the discretion of the clinical coordinator or instructor.
- In the case of a delay due to weather, it is at the discretion of the program to determine whether to report to for instruction at 10:00 am, in accordance with college-wide policies.
  - In some cases, programs may treat a two-hour delay as a closure (so as to not disrupt the operations of our off-site partners). In those cases, students may be assigned an out-of-class assignment or a make-up day at the discretion of the clinical coordinator or instructor.
- For start times after 10:00 am, attend the course as scheduled.

Offsite Courses (CNM faculty not on-site / Precepted Clinical)

- If a student is not enroute to or already at the offsite location, then they should adhere to the policies and procedures for college-wide closure or delay due to weather.
- If a student is already at the offsite location at the time of a CNM cancellation or delay, they may complete their assignment as scheduled (at the discretion of the program). The student should communicate with the clinical coordinator or instructor for further information.
- If a student is enroute to an offsite location at the time of a CNM cancellation or delay, the student must determine whether or not it is personally safe to continue travel to
the assigned offsite location. The student should communicate with the clinical coordinator or instructor for further information as soon as it is safe to do so.

- In the case of a delay due to weather, it is at the discretion of the program to determine whether to report to the offsite location at 10:00 am, in accordance with college-wide policies.
  - In some cases, programs may treat a two-hour delay as a closure (so as to not disrupt the operations of our offsite partners). In those cases, students may be assigned an out-of-class assignment or a make-up day at the discretion of the clinical coordinator or instructor.
- For clinical start times after 10:00 am, attend the course as scheduled.

Offsite Communications

- The clinical coordinator or instructor is responsible for ensuring communication occurs with our offsite partners in the event of a college-wide closure or delay due to weather.

Faculty Assignments (offsite courses cancelled due to two-hour delay)

- For Offsite Courses (CNM faculty on-site / Direct Clinical) that are cancelled due to delay, faculty should report to their Program Director, Associate Dean, or Dean for assignment at 10:00 a.m. in accordance with the policies and procedures for college-wide delay due to weather.
- For Offsite Courses (CNM faculty not on-site / Precepted Clinical) that are cancelled due to delay and for which no assigned students are in attendance, faculty should communicate with their Program Director, Associate Dean, or Dean. Hours may be flexed at the discretion of the supervisor.

Student Success and Resources

The EMS program has your success in mind every day that you are a student in this program. Here are some resources that will help you in that success:

Achievement Coach

The Achievement Coaches are a group of people who can support student success at CNM. Achievement Coaches are here to support students in setting and reaching goals. Please visit our website at www.cnm.edu/depts/achievement-coach to contact us regarding the following services:

Academic Coaching
- Set and reach academic goals
- Overcome challenges
- Etc...
EMS Program Student Handbook

Career Coaching
• Program and Career planning
• Job readiness
• Etc...

Referrals to CNM Departments
• Financial Aid
• Academic Advisement
• Etc...

Referrals to Community Resources
• Child care
• Health Services
• Etc...

AEMT Program: COORDINATED ENTRY PROGRAM

https://www.cnm.edu/programs-of-study/programentry/cpe-programs/emergency-medical-services-ems-intermediate

Term 1

- **AAS Mathematics Requirement** 3-4 credit hour(s) *
- **EMS 1053 - EMT Basic Theory** 6 credit hour(s)
- **EMS 1093 - EMT Basic Lab** 2 credit hour(s)
- **EMS 1190 - EMT Basic Clinical** 1 credit hour(s)
- **ENG 1101 - College Writing** 3 credit hour(s)
- **HLTH 1001 - Clinical Preparation** 1 credit hour(s)

Term 2

- **EMS 1412 - Advanced EMT (EMT-I) Theory** 6 credit hour(s)
- **EMS 1493 - Advanced EMT (EMT-I) Lab** 2 credit hour(s)

Term 3

- **EMS 1890 - Advanced EMT (EMT-I) Clinical** 2 credit hour(s)

Emergency Medical Services - Intermediate, Certificate of Completion 26-27 credits hours

Paramedic Program COORDINATED ENTRY

https://www.cnm.edu/programs-of-study/programentry/cpe-programs/emergency-medical-services-ems-paramedic

Requirements

- Minimum Cumulative GPA: 2.5
- Entrance Exam: FISDAP
- Successful completion of 2 graded scenarios AFTER the pre-registration screening form has been approved

Program Information

- Seats available in the program: 24
- Entrance availability: every Spring and Fall term
- Average number of approved applicants: 28
- Average is based on a calendar year of screened applicants (Fall 2015 - Fall 2016)
- More about the program: Emergency Medical Services (EMS) - Paramedic program page
Program Proficiencies and/or Prerequisites

Students may demonstrate proficiency in these areas either by Diploma/GPA, placement exam scores, or specific course work.

- Coordinated Entry Program
- Math Proficiency 2
- Reading & Writing Proficiency 2

Required Sequence of Courses

Term 1

- **ENG 1101 - College Writing** 3 credit hour(s)
- **EMS 1053 - EMT Basic Theory** 6 credit hour(s)
  and
- **EMS 1093 - EMT Basic Lab** 2 credit hour(s)
  and
- **EMS 1190 - EMT Basic Clinical** 1 credit hour(s)
  or
- **EMS 1412 - Advanced EMT (EMT-I) Theory** 6 credit hour(s)
  and
- **EMS 1493 - Advanced EMT (EMT-I) Lab** 2 credit hour(s)
  and
- **EMS 1890 - Advanced EMT (EMT-I) Clinical** 2 credit hour(s) *

- **HLTH 1001 - Clinical Preparation** 1 credit hour(s)

Term 2

- **AAS Mathematics Requirement** 3-4 credit hour(s) ** *
- **BIO 1410 - Biology for Health Sciences** 3 credit hour(s)
- **PSY 1105 - Introduction to Psychology** 3 credit hour(s)

Term 3

- **EMS 2103 - Human Systems Pathophysiology and Development** 3 credit hour(s)
- **EMS 2105 - EMS Program Success Course** 3 credit hour(s)
- **EMS 2192 - Drug Calculations Lab** 2 credit hour(s)
- **EMS 2207 - Legal Issues and Report Writing** 2 credit hour(s)

Term 4

- **EMS 2213 - Endocrine and GI/GU Theory** 1 credit hour(s)
- **EMS 2217 - Pharmacology Theory** 3 credit hour(s)
EMS Program Student Handbook

- **EMS 2223 - Advanced Trauma Theory** 3 credit hour(s)
- **EMS 2291 - Paramedic Lab I** 2 credit hour(s)
- **EMS 2313 - Neurological Theory** 2 credit hour(s)

**Term 5**

- **EMS 2303 - Cardiovascular Theory** 3 credit hour(s)
- **EMS 2307 - Respiratory Theory** 2 credit hour(s)
- **EMS 2390 - Hospital Clinical I** 2 credit hour(s)
- **EMS 2393 - Paramedic Lab II** 3 credit hour(s)
- **EMS 2513 - Behavioral Emergencies and Communication** 1 credit hour(s)

**Term 6**

- **EMS 2503 - Pediatric and Gynecology Theory** 3 credit hour(s)
- **EMS 2507 - Environmental Theory** 3 credit hour(s)
- **EMS 2590 - Hospital Clinical II** 1 credit hour(s)
- **EMS 2593 - Paramedic Lab III** 2 credit hour(s)
- **EMS 2790 - Capstone Field Experience** 6 credit hour(s)

**Associate of Applied Science in Emergency Medical Services, Paramedic 67-70 credit hours**

* EMS 1890 Advanced EMT [EMT-I] Clinical would be taken in Term 2

* * MATH 1330 recommended for transfer to UNM

**EMS Program Outcomes**

**NREMT Pass Rate**

**EMT Basic**

- 2013: 83%
- 2014: 85%
- 2015: 82%
- 3 year average: 83%
- 2016: 84% (fall term has not tested, only half of students reported on)

**Advanced EMT**

- 2013: 89%
- 2014: 84%
- 2015: 85%
- 3 year average: 86%
- 2016: 76%
